

CRIME IN HAWAII

1980

A REVIEW OF
UNIFORM CRIME REPORTS

STATISTICAL ANALYSIS CENTER

APRIL 1981

FOREWORD

Everyone involved in law enforcement and criminal justice has felt the need for accuracy in the number and character of crimes reported to the police. It was this need that led the State of Hawaii to establish a statewide reporting of Uniform Crime Reports (UCR).

Crime in Hawaii, 1980, A Review of Uniform Crime Reports, has been prepared to serve as a summary of statistics on crime in the State and Counties of Hawaii. This report is published to provide law makers, heads of State and County governments, law enforcement officials and other administrators with authentic and reliable statistics to assist them in making decisions in their respective fields.

Crime in Hawaii has increased significantly in the past year. All Crime Index offenses, with the exception of motor vehicle theft, increased during the period 1979-1980. While this publication serves as a tool for administrative and operational decisions, it also serves to inform the public as to the extent of criminal activity in Hawaii.

The Hawaii Criminal Justice Statistical Analysis Center wishes to express its appreciation to Roy K. Hiram, Chief of Police, Kauai Police Department; Francis Keala, Chief of Police, Honolulu Police Department; Guy Paul, Chief of Police, Hawaii County Police Department; John San Diego, Sr., Chief of Police, Maui Police Department, and to their respective research staffs for providing the accurate and necessary data reported herein; to the Federal Bureau of Investigation which provided assistance and guidance in the collection of the Uniform Crime Reports. Their assistance is gratefully acknowledged.

We give special thanks to the Judiciary Public Information Office for the invaluable assistance given in reviewing the materials presented herein and for the advice given in arranging its composition.

Prior reports were made possible through grants awarded to the Hawaii Judiciary by the Law Enforcement Assistance Administration (LEAA). The Hawaii Criminal Justice Statistical Analysis Center is currently funded by the State of Hawaii.

INTRODUCTION

Operational Criteria

The development of the State Uniform Crime Reports (UCR) Program is a relatively new approach to the collection of UCR data. An important aspect of the transference of this collection responsibility from the FBI to a State agency is to ensure consistency and comparability in the data collected by the State programs. Following are the conditions set by the FBI under which a State program is developed and by which it must operate:

(1) The State program must conform to the national Uniform Crime Reports standards, definitions, and information required. This, of course, does not prohibit the State from collecting other statistical data beyond the national collection.

(2) The State agency must have a proven, effective, mandatory, statewide program and have instituted acceptable quality control procedures.

(3) Coverage within the State by a State agency must at least be equal to that attained by Uniform Crime Reports.

(4) The State agency must have adequate field staff assigned to assist local units in record practices and crime reporting procedures.

(5) The State agency must furnish to the FBI all of the detailed data regularly collected by the FBI in the form of duplicate returns, computer printouts, and/or magnetic tape.

(6) The State must have the proven capability (tested over a period of time) to supply all statistical data required to the FBI in time to meet national Uniform Crime Reports publication deadlines.

(7) The FBI will continue its internal procedures of verifying and reviewing individual agency reports for both completeness and quality.

(8) The FBI will continue to have direct contact with individual reporting units within the State where necessary in connection with crime reporting matters, but will coordinate such contacts with the State agency.

(9) Upon request, the FBI will continue its training programs within the State with respect to police records and crime reporting procedures. For mutual benefit these will be coordinated with the State agency.

(10) Should circumstances develop whereby the State agency cannot provide the data required by the national program, the FBI will reinstitute a direct collection of Uniform Crime Reports from police units within the State.

Background

UCRs are a long-standing source of information about law enforcement and crime.

The purpose of the Uniform Crime Reports component is:

to establish, at the state level, the responsibility to collect and report uniform crime data in accordance with standards developed jointly by the Federal Bureau of Investigation and the International Association of Chiefs of Police (IACP).

Information Requirements

The Uniform Crime Reports Program has been traditionally oriented toward law enforcement statistics. The basic data elements required by the FBI, when supplemented by additional state oriented items, permit a variety of interesting statistical analyses.

Three categories of statistical reporting are utilized:

- Crime Trends - Reported Offenses
- Arrest Patterns
- Offense Characteristics

Recent Developments

The Congress of the United States, in October, 1978, passed legislation mandating that arson be classified as a Part I, Crime Index Offense in the UCR Program. Arson data for 1980 are not available, but will be published in Crime in Hawaii, 1981.

The National UCR Program modified its collection of data on the Age, Sex and Race of Persons Arrested effective January 1, 1980. All data concerning race were condensed to reflect only White, Black, American Indian or Alaskan Native, and Asian or Pacific Islander. In addition, ethnic origin data i.e., Hispanic or Not Hispanic, were collected. New age breakdowns for persons arrested under the age of 18 were also instituted. The new categories show the number of persons arrested under ten years of age and those between the ages of 10 and 12.

The State of Hawaii UCR Program will continue to report the racial categories utilized since 1976 in all reports, in addition to the new Federal standards.

Arrest Patterns

Statistical reports derived from arrest information are presented with other UCR exhibits because they are primarily of interest to law enforcement agencies.

Offense Characteristics

UCR provides a vehicle for collecting information which describes criminal events in detail. Law enforcement and planning agencies have the predominant need for these data because of their relationship to crime prevention. Such data can be used to analyze crimes of violence according to weapon used, day of the week, victim relationship, victim age, offender age, and the police officer as a victim. Monetary losses resulting from crime against property can also be portrayed.

The monthly data collection forms encompass reported offenses, supplemental information about actual offenses and characteristics of arrested persons.

Hawaii UCR Program

In an effort to provide as complete a picture of crime in the State of Hawaii, the Hawaii Criminal Justice Statistical Analysis Center (SAC) presently has the responsibility of serving as the clearinghouse for Uniform Crime Reporting (UCR) data.

Uniform Crime Reports on personal and property crimes in Hawaii are compiled and analyzed by the SAC.

As crime and fear of crime are recognized by citizens of the State as a problem of highest concern, timely and accurate information is necessary to assist administrators and other public officials in assessing the problem.

SAC is able to provide information related to crime at the State and County levels with sufficient timeliness to alert all criminal justice agencies and the public long before national crime data are released.

Significant changes have been made to the UCRs for the State of Hawaii. Prior to SAC's involvement in the UCR Program, the four counties independently submitted reported offense and arrest statistics to the FBI on an optional basis.

UCRs maintained at SAC differ from data collected at the National level in that the unique racial breakdown for Hawaii is recognized and compiled. The FBI uses only four racial categories: White, Black, American Indian or Alaskan Native and Asian or Pacific Islander. The Hawaii program has broken out the categories to include: Chinese, Japanese, Filipino, Samoan, Korean, Hawaiian/Part Hawaiian, and Others.

Another significant change to the UCR Program has been initiated. Effective January 1, 1978, SAC requested that all Police Departments break out racial characteristics of murder victims to conform with the arrest categories.

These changes, along with the functions of clearinghouse and data resource center have added much to the analyses of crime for Hawaii-specific problems.

It is with these purposes in mind that we submit to you the Sixth Annual "Crime in Hawaii: A Review of Uniform Crime Reports."

TYPES OF CRIME STATISTICS

Seven offenses were chosen in the UCR Program because of their seriousness and frequency of occurrence as indicators of crime in the United States - these are known as Index Crimes.

It must be kept in mind that all offenses reported herein are known offenses to the police. There has been no consideration taken of any unreported crimes. Because not all crimes come to the attention of the police, the International Association of Chiefs of Police (IACP) limited the reporting of offenses known to the following crime classifications because these are assumed to be the crimes which are most likely to be reported and which occur with sufficient frequency to provide an adequate basis for comparison. They are also serious crimes by nature and/or volume. The chosen offenses are:

1. Criminal Homicide
2. Forcible Rape
3. Robbery
4. Aggravated Assault
5. Burglary
6. Larceny-Theft
7. Motor Vehicle Theft

Essential to maintenance of uniform and consistent data is the establishment of a standard definition of the offenses to be used in the program. Each of the Part I Offenses has been defined specifically in UCR. The Crime Index Offenses are all of the Part I Offenses with the exception of 1b, manslaughter by negligence. Part II Offenses are all other offenses not listed as Part I.

HAWAII CRIME SUMMARY

Index Crimes

The seven most serious crimes (Index Crimes) reported in 1980 totaled 72,102 as compared with 66,245 Index Crimes reported in 1979. The reported Index Crime rates were 7,474.8 and 7,241.5 per 100,000 population for 1980 and 1979, respectively.

Largest Category of Index Crimes

Consistent with the trend across the nation, larceny-theft remained the largest category of the Index Crimes. A total of 45,501 were reported in 1980 or an increase of 12.3 percent over the previous year and constituted 63 percent of all Index Crimes.

Personal Crimes

Crimes against persons, or violent crimes totaled 2,887 in 1980, a 9.1 percent increase over the previous year of the four categories of crimes in this group. All four Index Crimes increased over the previous year. Murders were up 27 percent from 66 in 1979 to 84 in 1980; Rape offenses increased by 12.8 percent (296 to 334); Robberies were up by 8.7 percent (1,688 to 1,835) and Aggravated Assaults increased by 6.2 percent from 597 in 1979 to 634 in 1980.

Property Crimes

Crimes involving property and committed without the use of force totaled 69,215, or an increase of 8.8 percent over 1979. Of this total, larceny-theft accounted for 65.7 percent of all property crimes with burglary and motor vehicle theft accounting for 25.7 and 8.5 percent, respectively.

Residential burglaries accounted

for 67.6 percent of all burglaries reported with more than half or 57.7 percent committed during the day.

Value of Property Stolen

The total value of property reported stolen in Hawaii during 1980 was \$45,908,400. The police departments were successful in recovering 27.0 percent of the loss or \$12,399,200 as compared with a 32.1 percent recovery rate in 1979. Property loss was reported as a result of 334 rapes, 1,835 robberies, 17,811 burglaries (breaking and entering), 5,903 motor vehicle thefts and 45,501 larceny-thefts.

Arrests Reported for Index Crimes

A total of 11,238 arrests were made for Index Crimes in 1980, accounting for 33.0 percent of all arrests.

Total Arrests Reported

A total of 34,069 arrests for all non-traffic offenses were reported in 1980. Juvenile arrests accounted for 29.7 percent of all persons arrested for the year.

Narcotic Drug Arrests

A total of 2,441 arrests for drug violations were reported in 1980 as compared with 1,812 in 1979. Of this number 18 percent were persons under 18 years of age.

Gambling Arrests

A reported 1,017 arrests were made on charges of gambling in 1980. A total of 55 arrests or 5.4 percent were juveniles under 18 years of age. This compares with 9.3 percent for the same period in 1979.

Murder and Nonnegligent Manslaughter

Definition

Murder is defined in the Uniform Crime Reporting Program as the willful killing of another. The classification of this offense, as in all of the other Crime Index offenses, is based solely on police investigation as opposed to the determination of a court, medical examiner, coroner, jury, or other judicial body.

Deaths caused by negligence, suicide, accident, or justifiable homicide are not included in the count for this offense classification. Attempts to murder or assaults to murder are scored as aggravated assaults and not as murder.

Aggravated Assault

Definition

Aggravated assault is the unlawful attack by one person upon another for the purpose of inflicting severe bodily injury usually accompanied by the use of a weapon or other means likely to produce death or serious bodily harm. Attempts are included since it is not necessary that an injury result when a gun, knife, or other weapon is used which could and probably would result in serious personal injury if the crime is successfully completed.

Burglary

Definition

The Uniform Crime Reporting Program defines burglary as the unlawful entry of a structure to commit a felony or theft. The use of force to gain entry is not required to classify the crime as a burglary. The offense of burglary in this Program is broken down into three subclassifications: forcible entry, unlawful entry where no force is used, and attempted forcible entry.

Larceny-Theft

Definition

Larceny-theft is the unlawful taking or stealing of property or articles without the use of force, violence, or fraud. It includes crimes such as shoplifting, pocket-picking, purse-snatching, thefts from motor vehicles, thefts of motor vehicle parts and accessories, bicycle thefts, etc. In the Uniform Crime Reporting Program this crime category does not include embezzlement, "con" games, forgery, and worthless checks. Motor vehicle theft, of course, is excluded from this category for crime reporting purposes inasmuch as it is a separate Crime Index Offense.

This display should not be taken to imply a regularity in the commission of offenses, rather, it represents the annual ratio of crime to fixed time intervals.

OFFENSE STATISTICS

The following section presents statistics on offenses reported to the Police Departments in the State of Hawaii. Offenses highlighted in this section are the Crime Index Offenses of murder, rape, robbery, aggravated assault, burglary, larceny-theft and motor vehicle theft. Tables 1 through 4 highlight the Hawaii Crime Index, while the remaining tables in this section focus on value of property stolen and recovered.

ARREST STATISTICS

Persons Arrested

The number of persons arrested for all violations except traffic in the reporting jurisdictions is compiled from monthly returns submitted by the contributing agencies. The age, sex and race of these persons is recorded and data are collected for juveniles as well as adults for the purpose of computing arrest trends and volume.

The Age, Sex, and Race of Persons Arrested form is used to collect data on the number of persons arrested and not the number of persons charged. The same person may be arrested several times during a month for similar or several different violations within a jurisdiction; each separate arrest is counted. It is also possible that a person is arrested on several charges at one time; however, in this instance only one arrest is scored.

Race of Persons arrested is broken out by both the national reporting format and the State of Hawaii format. Nationally utilized categories include only White, Black, American Indian or Alaskan Native and Asian or Pacific Islander. For the State of Hawaii, the categories are further broken down to include Chinese, Japanese, Filipino, Hawaiian/Part Hawaiian, Korean, Samoan and Other.

The following tables present data on persons arrested by age, sex and race for the State of Hawaii, 1980. County breakdowns for the same categories are available as a supplement to this Annual Report.

UNIFORM CRIME REPORTING DEFINITIONS

Part II Offenses

1. Other Assaults

All assaults other than aggravated are included in this category.

2. Arson

Included are all arrests relating to arson or attempted arson. If personal injury results from the arson, the situation would be classified as aggravated assault. In the event a death results from arson, the incident would be classified as a murder.

The United States Congress, in October, 1978, passed legislation mandating that arson be classified as a Part I, Crime Index Offense in the UCR Program. Arson as a Part I offense will be reflected in the 1981 Crime in Hawaii publication.

3. Forgery and Counterfeiting

Included in this classification are all offenses dealing with or attempting to deal with the making, altering, or possessing, with intent to defraud, anything false in the semblance of that which is true.

4. Fraud

Fraudulent conversion and obtaining money or property by false pretenses; includes bad checks, confidence games, etc., except forgeries and counterfeiting.

5. Embezzlement

Misappropriation or misapplication of money or property entrusted to one's care, custody, or control.

6. Stolen Property: Buying, Receiving, Possessing

Included in this category are all offenses of buying, receiving, and possessing stolen property, as well as all attempts to commit any of these offenses.

7. Vandalism

Vandalism consists of the willful or malicious destruction, injury, disfigurement, or defacement of any pub-

lic or private property, real or personal, without consent of the owner or person having custody or control, by cutting, tearing, breaking, marking, painting, drawing, covering with filth, or any other such means as may be specified by local law.

This offense covers a wide range of malicious behaviour directed at property such as: cutting auto tires, drawing obscene pictures on public restroom walls, smashing windows, destroying school records, tipping over gravestones, defacing library books, etc.

All arrests including attempts are scored as vandalism.

8. Weapons: Carrying, Possessing, Etc.

This class deals with weapon offenses, regulatory in nature, such as: manufacture, sale, or possession of deadly weapons; carrying deadly weapons, concealed or openly; using, manufacturing, etc., silencers; furnishing deadly weapons to minors; aliens possessing deadly weapons.

All attempts to commit any of the above.

9. Prostitution and Commercialized Vice

Include in this class the sex offenses of a commercialized nature, such as: prostitution; keeping bawdy house, disorderly house, or house of ill fame; pandering, procuring, transporting, or detaining women for immoral purposes, etc.

All attempts to commit any of the above.
